

AFFINITY

YZF-YZH UP TO 18 SEER HIGH-EFFICIENCY HEAT PUMPS

Everyone wants time to relax and be comfortable. That's why we created Affinity high efficiency heat pumps, so you can take it easy when it comes to all the things you want out of a home comfort system. Things like dependable performance, energy efficiency and operating economy. As a result, there's no reason to sweat the details. And because it's built by York — the industry leader in innovative design — you know your system won't be down when you want some down time.

YORK[®]

COMFORT AT ALL TIMES

All Affinity systems are designed for longlasting reliability and energy-efficient performance. Replacing an old unit with a high-efficiency Affinity system significantly lowers your electricity costs. But selecting a York product does more than save energy, it also helps protect the environment.

DESIGNED FOR EFFICIENCY, RELIABILITY AND COMFORT

The innovative Scroll compressor technology in the York Affinity Series offers a greater efficiency than models equipped with a traditional compressor, reduces noise and gives you even comfort levels. *Two-stages in the YZH model*

ALL AFFINITY SYSTEMS ARE BACKED WITH A 10 YEAR WARRANTY ON COMPRESSORS AT NO EXTRA COST.

YORK EXCLUSIVE HOT HEAT PUMP TECHNOLOGY

Unlike standard heat pumps, all Affinity models incorporate "Hot Heat Pump" technology exclusive to York, to deliver higher discharge air temperatures. Their innovative compressor and control technology combine to eliminate initial cold drafts and lower energy costs.

Air from the register feels warm to the touch above 37°C.

RAISING COMFORT LEVELS BY REDUCING SOUND

The Affinity is one of the quietest series ever offered by York. Innovative design reduces the sound dramatically.

- High-efficiency compressor
- Components are isolated behind an advanced composite material reducing transmitted compressor noise
- Advanced fan design for smoother air flow and reduced blower noise
- A composite base pan dampens sound of Affinity units

**One of the
quietest sounds
around your
home**

LAWN MOWER 110 dB

WASHING MACHINE 80 dB

HAIR DRYER 75 dB

**AFFINITY
69 dB**

INNOVATION INSIDE AND OUT...

1

Fan guard design yields quieter and more efficient operation

2

State-of-the-art compressor combines reliability and efficiency

3

Composite base pan distributes and dampens sound

4

Powder painted steel for long-term durability in the harshest environments

5

A stamped full metal coil guard and polymer mesh provides ultimate protection

Isolated compressor compartment reduces noise

Designed for easier access to all components for faster serviceability

AFFINITY FEATURES THAT STAND OUT

All models utilize the exclusive microprocessor based, on-demand, defrost control system which reduces the frequency of defrost cycles by 40% while increasing energy efficiency and life expectancy of the system. In the event of improper operating conditions, the unit will automatically shut down while the onboard diagnostic LED's guides the technician to the source of the problem.

QuietDrive™

The new York QuietDrive™ system utilizes a swept-wing fan design, compressor blanket and highly efficient compressor technology to provide quieter operation and more energy-efficient performance.

FILTER-DRIER

A factory installed, solid core liquid line filter-drier filters harmful debris and moisture from the system.

HIGH TECH COILS

Using the latest in heat transfer technology, the rifled tube coils are mechanically bonded to lanced aluminum fins to produce excellent heat transfer capability, high performance ratings and long-lasting quality.

PERFORMANCE BEYOND EXPECTATIONS

AFFINITY: PART OF A TOTAL YORK COMFORT SYSTEM

Extend your quiet, efficient comfort with a York furnace or air handling unit – which are designed for the same level of money-saving efficiency, quiet operation, and durability. Our variable-speed air handlers and furnaces feature electronically commutated motors – which dramatically lowers your electrical consumption and, in certain applications, will use less energy than a 100-watt light bulb.
