
LX Series **GAS FURNACES**

up to 96% AFUE

**THERE'S A FINE LINE BETWEEN ATTENTION TO DETAIL AND OBSESSION.
THE NEW YORK® RESIDENTIAL LX SERIES CROSSES THAT LINE TO BRING YOU
THE MOST DURABLE, SERVICEABLE AND COST-EFFECTIVE RANGE IN OUR HISTORY.**

WHAT QUALITY feels like

LX SERIES GAS FURNACES

WHEN THERE'S A CHILL IN THE AIR, AND OLD MAN WINTER IS KNOCKING AT THE DOOR, IT'S COMFORTING TO KNOW YOUR FAMILY WILL BE KEPT WARM INSIDE, ALL SEASON LONG. That's the power of a YORK® LX Series gas furnace, with the reassurance that over 140 years of providing heating and cooling solutions for some of the world's most demanding buildings can bring. Because when it comes to providing for your family, we know that comfort is more than a temperature.

Reduced consumption: Models with ECM fan motors improve system performance and reduce electricity use. Our models with variable-speed ECM motors include ClimaTrak™ technology that can be fine-tuned to your specific climate needs.

Personalized comfort: Two-stage gas furnaces can shift their level of performance to track temperatures more accurately and provide greater comfort.

Efficient performance: Advanced, tubular aluminized steel primary heat exchanger allows for high heat transfer and outstanding efficiency.

Intelligent engineering: Hot surface ignition and 100% shutoff valve technology saves on fuel costs while increasing dependability and reliability.

Precision construction: Reinforced cabinets and gasketed doors help ensure warm air goes where it's needed, quietly and efficiently.

Year-round value: For even greater flexibility, add an indoor coil from a YORK® split system to your furnace for complete comfort in all seasons.

OPTIMIZE YOUR INDOOR COMFORT AND PRESERVE THE HEALTH OF YOUR FAMILY BY ADDING YORK AIR QUALITY PRODUCTS

High performance media air cleaner

- Captures particles suspended in the air such as contaminants as small as 1 micron. Particles less than 6 microns are invisible; the size of allergen particles and spores varies between 0.5 to 1 micron
- Reduces risk of asthma and allergic reactions
- Very low static loss
- 5-year limited warranty

BP Series humidifier

- Healthier occupants
- Easy installation
- Ideal for 1,000 to 4,000 sq ft homes
- Extremely low maintenance
- 5-year limited warranty

COMFORT on every level

Advanced efficiency: YORK® LX Series gas furnaces meet EPA energy efficiency standards, with select models qualifying as ENERGY STAR® products, and up to a 96% Annual Fuel Utilization Efficiency (AFUE) rating on our most efficient models.

World-class quality: Designed and built in North America, YORK® LX Series gas furnaces are crafted using state-of-the-art manufacturing techniques from Johnson Controls to provide world-class quality at competitive prices.

Prestigious endorsements: YORK® LX Series gas furnaces bearing the Good Housekeeping seal are just another reminder of the quality that comes standard in every product we make.

A PRESTIGIOUS PAST, A FUTURE WITH CONFIDENCE

Since 1874, we've provided air quality solutions for some of the most complex structures in the world. And for over 40 years, York is the chosen brand by Canadian consumers when it comes to ensuring year-round comfort for their loved ones. And because York units are designed and built in North America, you can be confident that your system will provide your family with comfort, energy savings and lasting performance.

FROM THE FACTORY TO YOUR HOME, PROFESSIONALS DEDICATED TO PROVIDING YOU PEACE OF MIND

York designs its products to offer comfort, safety and reliability at all times. This is why they rely on a network of certified contractors with the best technical knowledge for the installation of their systems. They will help you select the best suitable equipment for your home and will install your system for maximum reliability and performance.

This network of certified dealers is supported by The Master Group, the largest independent distributor in the field of HVAC-R in Canada. For nearly 65 years, The Master Group has distinguished itself for its extensive inventory, exceptional customer service and technical expertise. An additional insurance of peace of mind for many years.

SAVES MONEY WHILE IT KEEPS YOU WARM

With a LX Series 96% AFUE gas-fired furnace, it's easy to cut heating costs up to 31% compared to most furnaces that are 20 years old. For instance, our hot surface ignition technology doesn't waste fuel like a standing pilot does. Self-cleaning inshot burners precisely regulate the fuel mixture to ensure efficient, quiet and clean operation. And, a 100% shut-off main gas valve will completely turn off all gas flow to assure your safety.

DURABILITY IN EVERY DETAIL

The entire system is built to last. The hot surface ignition system is virtually maintenance-free. Our aluminized steel tubular heat exchangers are made to resist the corrosion and cracks which can develop in die-formed exchangers. And, the heavy duty cabinet is made of pre-painted steel with an appliance like finish which resists corrosion and fading.

Model	Nominal CFM (m ³ /min)	BTU	Width*
HIGH-EFFICIENCY SINGLE STAGE AFUE 95.5%
